

Prospects for the development of a
logistics company in the Belgorod region.

Dmitriy Strelnikov

July, 12 2021

1. Introduction

1.1. Background.

This work will analyze the two largest cities of the Belgorod region: Belgorod and Stary Oskol.

- Belgorod is the administrative center of the region with a population of 400,000 people, covering an area of 151.3 sq. km
- the industrial city of Stary Oskol with a population of 224,000 people, total area - 200.8 sq. km

1.2. Problem.

A preliminary assessment requires a general understanding of the number, location and identification of possible previously unaccounted for indicators of entertainment infrastructure in the named cities.

1.3. Interests.

The purpose of this project is to compare the entertainment infrastructure of cities. As a result, we will get a general idea of the prospects for a logistics company supplying soft drinks to places of leisure (restaurants, cafes, cinemas, parks, shopping and entertainment centers).
